For fast installs and easy removal.

3M™ Promotional Film IJ56C

3M™ Promotional Film IJ56C is designed for short-term, flat applications that require good print quality, easy installation and clean removal. This film has an air release feature that makes it easier to install versus promotional films without air release. It is available in both a matte and gloss finish.

- Air release for easy, bubble-free installation
- Print compatibility: test and approve to determine suitability for use with latex, UV, and solvent inks
- Conforms to simple curves and smooth, flat surfaces
- Removes cleanly at end of life
- Adheres to a wide range of substrates, including painted aluminum, bare metal, glass, vinyl, acrylic, signage boards
- Available in matte and gloss finishes

Transit advertising

Billboards

External/internal temporary signage

Tradeshow displays

Point of purchase displays (POP)

Strategic Authorized
Distributor

Ideal film solution for short-term, flat surface applications on vehicles, displays, point-of-purchase displays, wall advertisements, billboards, and event communications.
