

GF 201 & 203 with OP/OPAE

Matte & Gloss Calendered Films

GF 201 & 203 OP / OPAE Matte & Gloss Calendered Films are better than ever with the addition of a new grey solvent adhesive. The new solvent adhesive improves upon the already great performance of GF 201 Matte and GF 203 Gloss. Both products are available in Air Egress (OPAE) and Non-Air Egress (OP) options and are compatible across Eco-Solvent, Solvent, Latex, and UV print systems.

Applications:

- Decals & Stickers
- Flat Surface Solution for General Signage, Yard Signs, & Glass
- Smooth OEM Painted Metal like Aluminum & Stainless Steel
- Medium to Long-Term Applications

Unique Features:

- 99% Opacity with Excellent Hiding Power
- Designed for More Demanding & Durable, Long-Term Applications
- Lower Initial Tack for Better Repositionability
- Air Egress Option (OPAE) for Quick, Easy, Bubble-Free Applications
