

# Introducing the New Lidco Rigid Series

## DESIGN

- » Ribbed profile / radial corners
- » Rigid with high glide
- » Heat resistant to 130°
- » PFAS-free formula
- » Made in the U.S.A.

## SIZES

- » 3" x 4"
- » 3" x 6"
- » 3" x 12"

## COLORS

- » Black
- » Natural (by request)
- » Custom imprinting available

## Teflon-like performance—without the PFAS.

The Rigid Series is Lidco's next-generation, PFAS-free squeegee engineered for installers who demand glide, durability, and scratch resistance similar to traditional Teflon tools. Featuring the rounded corner design with two center ribs and a proprietary high-performance formulation, this eco-compliant alternative delivers the same professional results—without the environmental trade-offs.

Purpose-built to replace the Lidco Teflon Series, the Rigid offers enhanced material stiffness, improved heat resistance, and consistent handling under demanding application conditions. Its PFAS-free formulation complies with evolving state regulations, making it the smart, future-ready choice for distributors and installers working in markets where Teflon is being restricted.

Available in 3 sizes and our new black color. **Contact us for a quote today!**
