

ENGINEERED FOR EXCELLENCE

Wrap Film Solutions

As of January 2026

GRAPHIC SOLUTIONS

Adhesive & Film Performance Characteristics

Application Types

-  Vehicle & Fleet Graphics
-  Watercraft Wraps
-  Outdoor Signage
-  Backlit Signage
-  Indoor Signage, Exhibits, and P.O.P. Displays
-  Wall Graphics
-  Window Graphics
-  Specialty Applications
-  Decals

Adhesive Performance Characteristics

Removable Adhesive /// Short-to-medium-term

- Removes cleanly within 2–3 years of application from *most* properly prepared, smooth, sealed surfaces.
- Beyond 3+ years, removal properties may diminish and the adhesive may become more permanent.

Permanent Adhesive /// Medium-to-long-term

- Stronger anchoring power when applied to smooth, properly prepared, sealed surfaces.
- *May not* remove cleanly from the surface

High-tack Permanent Adhesive /// Permanent

- Extremely high-initial-tack and final bond when applied to hard-to-stick low energy plastics and powder coatings.
- *May not* remove cleanly from the surface

Film Properties

/// GOOD ///	/// BETTER ///	/// BEST ///
Calendered PVC Film	Cast PVC Film	XP (PU) Polyurethane Film
Thicker film type	Thin and flexible	Extremely durable
Flat surfaces only	Long-term applications	Eco-friendly film type
When used incorrectly, material may tunnel, delaminate, or “shrink” from the application surface	Premium film type	Self-healing properties
	Perfect for both flat and heavily contoured, curved, recessed surfaces	Will not yellow or crack

Proprietary Technologies

Additional Information

-  Educational Information
-  Helpful Tips & Tricks
-  Need To Know Information

RapidAir[®]

Specially formulated air-egress technology that facilitates a quicker, easier bubble free application.

ProSlide[®]

New advanced repositionable adhesive technology that enables a quick and easy application.

 Very stable and won't shrink!

 Extreme Performance that won't yellow or crack!

 UL Approved Products: UL certified for UL 969 “Marketing and Labeling Systems” (USA) and CSA c22.2 NO. 0.15 “Adhesive Labels” (Canada)

Vehicles with Complex Curves and Recessed Areas
