## ► Cast Vehicle Wrap Print Media

### No Primer, No Problem

DPF 6000XRP is a gloss white cast film with bubble releasing, tinted, repositionable, permanent pressure-sensitive adhesive. The X-Scape system allows installers to achieve speedy installation while maintaining high enough tack to ensure long-term bond. Designed for large format graphics, DPF 6000XRP is made of premium quality cast face stock with a lay-flat liner. The adhesive system is designed to provide excellent opacity, as well as easy installation. The film provides superior conformability around rivets, curves, and contours. DPF 6000XRP is rated for outdoor durability up to 7 years (unprinted). Printed durability is dependent on the ink system used.
